Téc in Business Administration
C.E.A.E.R (2016 - 2018)

Full Stack Web developer
Henry (September-2020 / January-2021)

LANGUAGE

English 
Spanish 

PROJECTS

Wultur

Nov. 2020 – Dec. 2020

FE y BE: This is a student project we made as part of our education at Henry. This project consist of showing and managing the purchase of programming courses. The user will be able to enter the app, buy and make the payment in Paypal.

Wallet Fly

Dec. 2020 – Jan. 2021

FE: This is a final project we made as part of our education at Henry. In this Virtual Wallet you can enter and recharge money to your account, from an emulation of the "PagoFacil" service. You can also send money to your contacts. You can upload photos from your cell phone, and also activate the fingerprint to add security to the app.

Facebook-clone

Sep. 2020 – Sep. 2020

FE: My first personal project made in React Js. In this project, you could login with your Google account, and create a post, and see other people's posts.
