Virtual Wallet.

In this virtual wallet you can enter and recharge money to your account, from an emulation of the "PagoFacil" service. You can also send money to your contacts. You can upload photos from your cell phone, and also activate the fingerprint to add security to the app.

FE: React-Native, Redux-Persist, React-native-paper, Expo

BE: Nodejs, Express, Sequelize, Passport

Database: MySql, Firebase

[Presentation](#)

Trello.

Work in Progress. Project inspired in Trello.com

FE: React.js, Redux, HTML, CSS, JavaScript

BE: Nodejs, Express, Sequelize, JWT

Database: MySql
